

**FORAGES SINCE
1977
RESPECTING NATURE**

A close-up, profile view of a black and white cow's head as it eats green grass. The cow's face is the central focus, with its black and white patches clearly visible. It is chewing on a large mouthful of fresh green grass. The background is blurred, showing a wooden fence and other cows in a farm setting.

**SUPPORTING
BREEDERS
IN **RESPECT**
OF NATURE
FOR OVER 50 YEARS**

PRODUCTION OF ALFALFA, FORAGE OF ALFALFA, SIMPLE AND COMPOUND FEED

Always committed to research and innovation, the Paci & Pagliari Group has given life to a controlled supply chain project to value local forage by offering a product range intended for animal husbandry for proper nutrition and animal welfare.
